Things to check

Nothing on the plan needs checking.

Room size

Length: 14′-0″ (427 cm) · Measured ✓
Width: 11′-0″ (335 cm) · Typical size
Ceiling height: 8′-0″ (244 cm) · Typical size

Sizes to confirm

Room width — 11′-0″ (335 cm) · Typical size
Ceiling height — 8′-0″ (244 cm) · Typical size
D1 door width — 3′-1″ (94 cm) · Photo estimate
W1 window width — 7′-11″ (241 cm) · Photo estimate
Dining table — 6′-0″ × 3′-2″ (183 × 97 cm) · W: Photo estimate · D: Typical size
Chair ×5 — 1′-8″ × 1′-8″ (51 × 51 cm) · W: Photo estimate · D: Typical size
Cabinet — 3′-2″ × 2′-0″ (97 × 61 cm) · W: Photo estimate · D: Typical size
Rug — 9′-0″ × 6′-0″ (274 × 183 cm) · Typical size

How to measure

Room: measure wall to wall at floor level.
Ceiling height: measure floor to ceiling.
Doors and windows: measure the opening width inside the frame.
Furniture: measure width × depth × height at the widest points.
Rug: measure length × width.
Enter what you measure in the app — every sheet updates.

About this set

Room size is an estimate until you measure it in the app. Sizes are marked Your size (the size you set), Measured ✓ (you measured it), From product, Photo estimate or Typical size. Doors and windows read from your photo are approximate. Check every dimension on site before you buy or build.

when printed at 100% on Letter

LEGEND

- Furniture — picture drawn to its real size
- Picture shows the kind of piece, not the product
- Furniture — color block (no picture for this kind yet)
- Rug (under furniture)
- Floor — finish shown for look only
- Wall-mounted
- Ceiling light — dashed circle, hangs above
- Wall (drawn thick for clarity, not measured)
- Door (opening in the wall)
- Window
- ≈ estimated length · ✓ measured length

DOORS & WINDOWS

D1 Door · top wall · 3′-1″ (94 cm) wide (Photo estimate) · 10′-11″ (333 cm) from the left corner
W1 Window · left wall · 7′-11″ (241 cm) wide (Photo estimate) · 3′-1″ (94 cm) from the top corner

NOTES

Print at 100% (Actual size) — the scale bar is only true at that setting.
Wall thickness is drawn for clarity only.

FINISHES & QUANTITIES

Amounts are worked out from the room size below. Check the coverage on the product you buy.

Amounts

Worked out from: room length 14′-0″ (427 cm) (Measured ✓) · room width 11′-0″ (335 cm) (Typical size) · ceiling height 8′-0″ (244 cm) (Typical size)
The room width and ceiling height are not measured yet, so these amounts are an estimate — measure in the app and they update.
Doors and windows deducted: D1 door 3′-1″ × 6′-8″ (94 × 203 cm), typical height; W1 window 7′-11″ × 5′-0″ (241 × 152 cm), typical height.

Flooring: 170 sq ft

If you replace the floor — this design keeps the current one.
Floor area: 14 ft × 11 ft = 154 sq ft; With 10% waste: 14 ft × 11 ft × 1.10 = 169 sq ft → round up to 170 sq ft
Buy: Boxes covering at least 170 sq ft

Baseboard: 52 ft

If you replace the floor — this design keeps the current one.
Wall length: 2 × (14 ft + 11 ft) − D1 3.08 ft = 46.92 ft; With 10% waste: 46.92 ft × 1.10 = 51.61 ft → round up to 52 ft
Buy: 7 × 8 ft lengths

Paint: 2 gal (about 8 L) · 2 coats

Wall area: 2 × (14 ft + 11 ft) × 8 ft = 400 sq ft; Minus doors and windows: 400 sq ft − D1 21 sq ft − W1 40 sq ft = 339 sq ft; Paint needed: 339 sq ft × 2 coats ÷ 350 sq ft per gallon = 1.94 gal
Buy: 2 × 1-gallon cans

Primer, only if needed: 2 gal

Primer needed: 339 sq ft × 1 coat ÷ 300 sq ft per gallon = 1.13 gal
Buy: 2 × 1-gallon cans — only for new drywall, patches, or covering a dark color

Check the coverage and stock lengths on the product you buy — they replace the defaults above.

Colors & materials

Wall color — Warm Greige

Sherwin-Williams SW 7036 Accessible Beige (#D1C7B8) · closest match · check a physical sample

Dining table — black wood
Chair — black wood
Cabinet — brown wood
Chair — black wood
Chair — black wood
Chair — black wood
Chair — black wood

Colors are the closest paint-chip match to the design. Screens and print shift color — check a physical sample on your wall in daylight before buying.

SEQUENCE & NOTES

Do the steps in this order so finished work isn't damaged by the next one.

Order of work

1. Measure & verify

Measure room length, width and ceiling height; door and window widths and positions; outlet and switch locations. Enter them in the app so every number on these sheets updates.

Check on site: Measure the room sizes marked Photo estimate or Typical size · check each product's size before you buy · check that doors open fully · check behind furniture

2. Paint walls

When: If you change the wall color to match the design

Prime if needed (see the amounts sheet), then two coats; ceiling before walls, walls before trim.

Check on site: Test a sample patch in daylight first · tape off trim · let each coat dry per the can

3. Lighting & electrical

Install fixtures before furniture goes in so the ladder has room.

Check on site: Licensed electrician for anything hard-wired · power off at the breaker · fixture box rated for the weight

4. Deliver & place furniture

Bring pieces in largest first; place them by the dimensions on the furniture plan.

Check on site: Large pieces fit through the door and turns · walkways match the furniture plan · anchor dressers, bookcases and TVs to the wall

5. Hang art, mirrors & curtains

Hang them last, once furniture is in place, so you can center them on what's below.

Check on site: Find studs or use anchors rated for the weight · art center about eye level · curtain rod wider than the window

Placement

Leave at least 3′-0″ (91 cm) between the dining table and the wall so there's room to pull seats out.

Hang a pendant about 2′-6″ to 3′-0″ (76–91 cm) above the dining table top.

Choose a rug shape that suits the space; measure the room before choosing its size.

Keep main walkways about 3′-0″ (91 cm) clear.

Here: No alerts on the main walkways checked

Safety and licensed work

Electrical, gas, plumbing and structural work needs a licensed pro, and a permit where your city requires one.

Don't remove or cut into a wall until a pro confirms it isn't load-bearing.

Homes built before 1978 may have lead paint. Test before sanding or scraping, or hire an EPA RRP-certified painter.

Keep windows open and run a fan while painting, and follow the safety notes on the can.

Anchor tall dressers, bookcases and TVs to the wall to prevent tip-overs.
